SUMMARY

Aspiring Full-stack Developer and DevOps Engineer with a passion for continuous learning and skill enhancement. I excel in problem-solving and have a meticulous eye for detail, ensuring the delivery of high-quality, flawless code that surpasses client and user expectations. Collaboration fuels my drive, making teamwork a cornerstone of my professional ethos. My commitment to personal and professional growth is unwavering, and I am dedicated to leveraging technology to make a significant impact. Whether it's developing innovative software solutions or contributing to transformative projects, I am enthusiastic about driving positive change through technology.

SKILLS

- Project management
- Team Collaboration
- SQL & NoSQL database Integration
- RESTful API integration
- Ruby on Rails
- Javascript & Javascript frameworks (Vuejs, Angularjs, Reactjs)
- Docker
- Kubernetes

Projects

Solkids Africa - <https://solproject-gamma.vercel.app/>

Stack: Ruby Rails api, Javascript, Reactjs

Payment Methods: Stripe, Mpesa Daraja

SolKids Africa, powered by Ruby on Rails API and ReactJS, is a dynamic platform offering affordable and culturally rich Pan African content for children. Seamlessly integrating Stripe and Mpesa Daraja for secure transactions, we prioritize accessibility and trust. By fostering exploration and appreciation of African heritage, we champion local creators and elevate the African entertainment landscape. With a commitment to quality and diversity, SolKids Africa is reshaping children's entertainment norms.

Zeraki Dashboard - <https://zeraki-steel.vercel.app/>

Stack: JavaScript, ReactJS

Zeraki is committed to revolutionizing education across Africa by providing high-quality tools. This dashboard is part of an internal system aimed at streamlining operations for sales agents, enabling them to manage relationships with schools efficiently.

Ticket Fusion - <https://jtickets.vercel.app/>

Stack: Ruby on Rails API, JavaScript, ReactJS

Payment Methods: Mpesa Daraja

TicketFusion is a dynamic online ticketing platform designed to bring poetry enthusiasts together, celebrating creativity and fostering a sense of community. The platform offers a seamless and intuitive user experience for discovering and attending poetry events. With integrated **Mpesa Daraja** payment support, TicketFusion ensures secure and efficient transactions, empowering users to connect with the art of spoken word and written expression effortlessly.

Code Over Flow - <https://github.com/RemmyKyalo/CodeOverflow>

Stack: Ruby on Rails API, JavaScript, ReactJS

CodeOverflow is an innovative app designed to assist students in solving technical problems by providing a curated collection of solutions. Leveraging the power of Ruby on Rails API, JavaScript, and ReactJS, CodeOverflow offers a comprehensive platform for accessing and sharing solutions to coding challenges, fostering a collaborative learning environment.

House of Dotty - <https://houseofdotty.vercel.app/>

Stack: JavaScript, ReactJS

House of Dotty is an immersive event planning and management application that utilizes JavaScript and ReactJS. With its intuitive interface and advanced features, House of Dotty empowers users to collaborate with organizations to create memorable events. From seamless RSVP management to customizable event layouts, House of Dotty redefines event planning for the modern age.

EXPERIENCE

Software Developer | Thefeastify

Aug 2024 - current | Nairobi

- Designed and developed robust, scalable web applications for the food and beverage industry, focusing on user-friendly interfaces and seamless user experiences.
- Collaborated with cross-functional teams to gather requirements, identify bottlenecks, and implement efficient solutions.
- Integrated third-party APIs for payment processing, order tracking, and location-based services to enhance functionality.
- Conducted rigorous testing and debugging to ensure quality assurance and compliance with project requirements.
- Implemented secure authentication systems using JWT and OAuth2 to protect user data.

Freelance Developer

Jan 2023 - Aug 2024 | Nairobi

- Developed and delivered bespoke software solutions for a variety of clients, ensuring alignment with their business goals and technical requirements.
- Built web applications using frameworks like React and Rails with an emphasis on clean code and maintainability.
- Consulted with clients to define project scope, timelines, and deliverables, maintaining clear and consistent communication throughout project lifecycles.
- Implemented relational databases using PostgreSQL to support dynamic and data-driven applications.
- Created responsive user interfaces using modern front-end frameworks, ensuring optimal performance across devices.

LLB Intern | Directline Assurance

April 2019 - July 2019 | Nairobi

- Reviewed legal information and proofed documentation for errors.
- Attended depositions and court proceedings and prepared summaries on cases.
- Organized legal filing system to maximize efficiency.
- Performed legal and general research, drafting memoranda, and correspondence.
- Sorted legal documents, filing and case materials in clear, orderly systems.
- Drafted, received and tracked due diligence checklists.
- Produced legal documents such as briefs, pleadings and appeals.

EDUCATION

Moringa School, Kenya — Devops Engineering

June 2023- August 2023

Moringa School, Kenya — Software Engineering

November 2022 - May 2023

Strathmore University, Kenya — LLB

July 2016 - March 2020

Homeboyz Music School — Music Production

Jan 2016 - May 2016

Sunshine Secondary School, Kenya — KSCE

February 2012 - November 2015

Volunteer Experience

- **KSCPA:** I was in charge of planning and coordinating community awareness of the need for animal protection. This involved creating a budget, organizing events and campaigns, and collaborating with local partners and volunteers to raise awareness about the importance of animal welfare. Our goal was to educate the community about responsible pet ownership, advocate for the humane treatment of animals, and promote adoption from local shelters. Through these efforts, we aimed to foster a more compassionate and caring community that prioritizes the well-being of our furry friends.
